QAUJIGIARTIIT

# Now Hiring Multiple Positions

Qaujigiartiit Health Research Centre and the Paqqijamik Naalangniq, Nunavut SPOR Support Unit (NU SPOR), are seeking motivated individuals to support Inuit-led, patient-oriented research and community wellness across Nunavut.

## Current Opportunities:

### Policy Research Advisor (1-Year Term)

Lead research, policy, and program initiatives; engage communities; support data collection and analysis; draft research and policy materials. *Qualifications:* 3+ years in Nunavut; relevant education/experience; strong understanding of Inuit culture and IQ; research and communication skills.

### Community Coordinator

Support community engagement, outreach, events, and knowledge sharing. *Qualifications:* Experience in Nunavut communities; strong coordination and communication skills; Inuktitut an asset.

### Data Specialist

Support data governance, management, analysis, and visualization; uphold Inuit data sovereignty. *Qualifications:* Experience with health or social data; proficiency in Excel/R/Python; understanding of Inuit contexts and public health research.

### Facilities Manager (Part-Time, Evenings & Weekends)

Provide facility support at the Inuusirvik Community Wellness Hub; assist program users; ensure a welcoming community space. *Qualifications:* Strong interpersonal skills; reliability; facility or community programming experience an asset.

### Program Evaluator & Data Analyst

Support evaluation of QHRC programs; analyze data; prepare reports; develop evaluation frameworks. *Qualifications:* Experience in program evaluation or research; strong analytical and writing abilities; familiarity with Inuit communities.

**How to Apply:** Email your resume and cover letter to [hiring@qhrc.ca](mailto:hiring@qhrc.ca) and include the position title in the subject line. All positions remain open until filled.
